'REFLECTIONS'
AN EXTERIOR COLOUR STORY

Clay Coop Architects | Ahmed Afsal & Muhammed Ansif | Turtle Arts Photography

INTRODUCTION

Each passing day presents us with a new glimpse of our place in this world. Our experiences make us who we are... and we are constantly evolving into our true selves. Our experiences of being bound within the confines of our homes, compelled us to reflect on our lives and what really matters to us. We found solace in our humble abode, discovering that it is here, in its warmth and familiarity, that our hearts reside. We rediscovered a space that is truly ours: a cocoon for introspection, expression and self discovery.

Your home is a blank canvas on which you create your life. It is a safe space, a sanctuary that ignites creativity, rejuvenates you, allows you to relive and recreate memories by reviving the old while nurturing the new. We understand the place your home holds in your heart and that's why we reached out to 43 experts from across South East South Asia to get a deeper understanding of the design indicators currently in trend. With our collective wisdom and meticulous research, we embarked on a journey to unravel the palette of tomorrow.

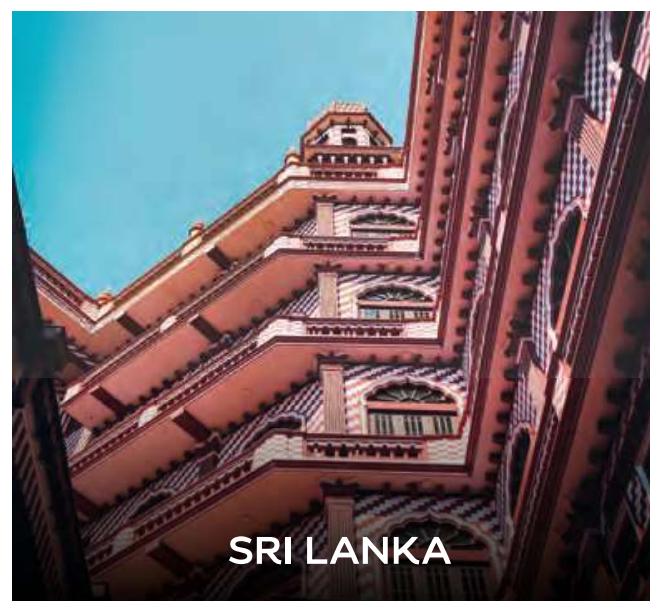

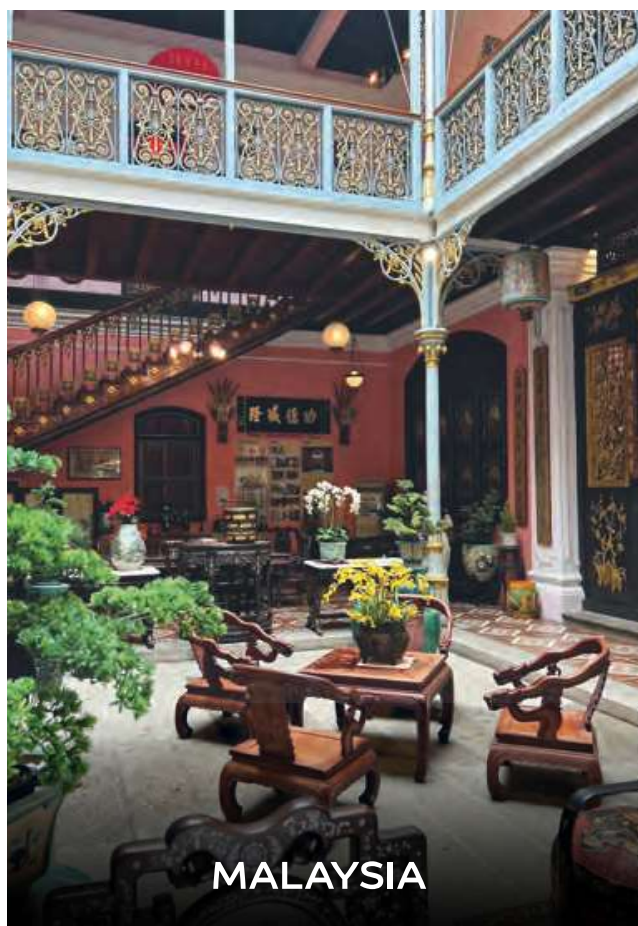

Now bring these insights to life with inspiration from tradition, nature, nostalgia or your deepest self, to envisage a space that echoes your identity. But, it must also make a statement at first sight. Inspire the world with all that has inspired you. Let the exterior of your home leave a lasting impression. A fragment of beauty for every passer-by to cherish.

In making your dream home a reality, Dulux Weathershield invites you to draw inspiration from the four colour stories curated specially for you. With vivid strokes of imagination, paint it with hues that embody your moods, emotions, experiences and the different reflections of you.

THE MAKING OF REFLECTIONS

A home is a cherished space where you can truly be yourself. To help you express yourself in your own corner of the world, we conducted creative workshops across seven countries in the South East South Asia region; Indonesia, Thailand, Vietnam, Singapore, Malaysia, Sri Lanka & India.

Our in-depth interviews and panel discussions featured expert panels of architects, interior designers and design editors from each country. We discovered future-worthy trends, colour palettes and elements that can balance comfort with style in your home.

OUR EXPERTS

For this project, expert workshops were conducted with 43 experts, across 7 countries in the South East South Asia region with panels consisting of architects, interior designers and design editors for each country. Through in-depth interviews and creative workshops, we were able to identify and bring to you colour palettes that you can use for your homes.

A Special Thank You!

- To all the experts, who shared their valuable insights with us.
- The Architects Diary, for helping us feature the best of architecture design projects.
- Tata Elxsi, for being our partners in envisioning this style guide from the research to the design.

We could not have done it without you!

FOUR STEP RESEARCH PROCESS

Akzo Nobel's captivating handbook has emerged from a meticulous four-step research process. Our extensive workshops with notable experts in seven countries of the South East South Asia region have laid the foundation for this guide. We discovered emerging trends and regional nuances, and developed these into a thematic colour palette that celebrates the vibrant culture of this region.

Phase
1

TREND RESEARCH

Identified emerging trends, designs and architectural styles in the South East South Asia region.

Phase
2

EXPERT WORKSHOPS

Conducted validation workshops with 43 experts across 7 countries.

Phase
3

ANALYSIS & THEME DEVELOPMENT

Identified and analysed five key trends in the region and their colour association.

Phase
4

COLOUR STORIES

Selected emerging trends to develop into colour themes.

REVISITING MEMORIES

Ignite joyful memories to bring comfort.

We are made of stories, shared moments and experiences that build us. Sepia-tone photographs that encapsulate vibrant memories of love and camaraderie.

A walk by the sea in your native village, dearly holding on to your father's little finger, as a hastily licked mango lolly drips down to your elbows. The timelessness of slow summer afternoons with your grandmother in the inner courtyard of your ancestral home, watching her ready spices for your favourite pickle. Lying on the verandah with your cousins, devouring comics and freshly made sweets.

How do you capture moments close to your heart, from a time when cameras were expensive and lived experiences were truly valued? You can encase them gently in the elements that make up your home. Maybe, as a palette with warm hues of the golden sun, reds as deep as dry chillies, oranges, and rust from your grandfather's travel chest, and pastel pinks that remind you of the endless hours spent making coloured paper boats.

Allow each stroke of colour to hold its own memory, bringing back the sounds and smells of yesteryear... still breathing and living as treasured moments of comfort, from when you were truly loved.

Let memories paint your canvas. Handpick a few elements reminiscent of your childhood home to recreate in your new home.

Create space for cherished memories as you incorporate the earthy aesthetics of a traditional verandah, carved wooden swings, and ornate furniture, combined with the right shades that preserve these memories.

NATURE NURTURING

Blur the lines between the indoors and the outdoors to feel tranquil.

Imagine..
the sound of a breeze rustling through the leaves,
the mesmerising hues in the evening sky,
the floating grey clouds that beckon the rain,
the freshly sprouted sprig of leaves on a grand old tree..

Even the mention of these simple acts of nature instil a sense of calm. Now, imagine bringing such beautiful experiences into your home, merely by blurring the lines between your indoors and the outdoors.

Large doors and windows for an open, airy look that bring the greenery and natural light into your home. Perhaps, a skylight to experience the romance of the rain showers in the warmth of your sitting area. Think muted greens, sky blues, teals and cool neutrals that complement the tones of nature. Pair these colours with exposed cement material and dark stone claddings to evoke a sense of nature nurturing us within our homes.

Create a tranquil space, by marrying colour and biophilia – a home for you to restore and rejuvenate. Let this nurturing palette enrich you with a sense of vitality and a feeling of oneness with nature.

Experts Say:

60% of experts

were asked to incorporate large windows and skylights by house owners to maximize natural light and ventilation.

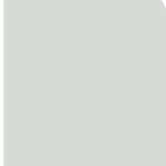

80% of experts

commented that there is rise in the use of interior and exteriors plants. Exposed cement finishes and other greys are popular choices for exteriors when paired with greens.

MINDFUL EXPRESSIONS -----

Tap into your inner self to express your creativity.

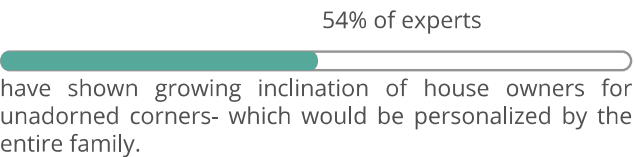

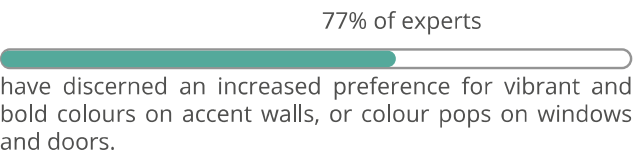

A home is a space for rest, renewal, and reflection. A place of wellness and self-care, where you can truly be yourself. Unwind from the mundane by cooking a wholesome meal, singing out of tune to your favourite song, or dancing like no one’s watching.

Your unique style is a living experience. It emerges from a constantly evolving string of moments that make you who you are. Your inimitable spirit deserves its own canvas. Add a personal touch to your home by painting a mural on its walls. Maybe, simply a pop of colour to its window frames or the main door.

Use shades of white, ivory with hints of fresh pastels such as muted pinks and powder blues to reflect your individualism, creativity and self-love. Complement these subdued tones with colours that make a statement - vibrant shades of lavender, coral, vermillion, deep blue or mustard.

BACK TO THE ROOTS

Revive the old while nurturing the new to remain rooted.

Let's embark on a journey that celebrates your culture. An invitation to infuse your home with the essence of your rich tradition, reviving its humble elements and blending them seamlessly.

Restore age old practices such as terracotta roofing and tiling, locally sourced bamboo, stone, and hand-made bricks in reminiscence of your heritage. Remain rooted by using colours inspired by local and traditional materials such as earthy tones, soothing greens and warm neutrals.

Immerse yourself in the colours and sketches of a bygone era that bring alive your profound connection with tradition.

So, when you step into your home, you always remember where you came from.

Experts Say:

73% Experts

noted an increased preference for locally sourced and sustainable materials like bamboo, handmade bricks and terracotta tiles, for home exteriors.

66% Experts

have noticed an increased demand for natural ingredients and organic products in people's day-to-day lives.
